## Program Description

Designed for students interested in becoming professional counselors who want to make a difference in the lives of trauma survivors. Accelerated dual degree program allows students to seamlessly complete undergraduate and graduate degrees in less time than would be required to complete both separately.

- See each program for Learning Outcomes.

## Learning Goals/Outcomes (Health Sciences)

- Apply scientific and psychological concepts to make informed clinical decisions.
- Explain factors that can influence health and well-being.
- Apply principles of professionalism, respect, and ethical behavior (in class and in the field).
- Demonstrate an understanding of a range of health professions' scopes of practice and responsibilities to make informed career decisions.

## Curriculum: 5 Years, 165 Credits

- 120 credits BS; 48 credits MS
