## **Program Description**

-Online Accelerated Program

The BS in Emergency Management is a fully online program with accelerated courses offered in 8-week terms with generous transfer credits for prior learning. The program is designed to accommodate working professionals and provide a top-ranked education with the flexibility to navigate competing priorities.

The curriculum integrates theoretical foundations with practical applications, focusing on key elements of emergency management. Graduates will be equipped to work in various settings, including government agencies, healthcare, non-profit organizations, and private industry.

## Curriculum: 120 credits

General Education Requirements (40 cr.)
