Program Description

Jefferson’s post professional MS in Cardiovascular Perfusion affords certified cardiovascular perfusionist (CCP), who have graduated from an AC-PE accredited perfusion program, to build upon their current knowledge base and earn a master’s degree from one of the nation’s most reputable universities. After successfully completing all required courses, conducting research, and presenting an evidence-based project on how to better patient outcomes, students will earn their post professional master’s degree.

The program will utilize online technology to provide working professionals the opportunity of obtaining a MS in Cardiovascular Perfusion.

Program Goals

- Allow perfusionists to develop (or build upon current practices) and implement methodologies that are supported by evidence-based medicine to aid in better outcomes for their patients.
- Have students complete a capstone project to enhance their current clinical practices.
- Promote both personal and professional growth to certified perfusionist wishing to further their perfusion education.
