Program Description

Designed to help meet the growing demand for professional Certified Athletic Trainers (ATC). The athletic training program is constructed to prepare highly motivated students with an interest in the medical field to sit for the N Board of Certification (BOC) examination upon graduation.

Learning Goals & Outcomes

- Participate as a part of a healthcare team by collaborating with colleagues through a complex medical system.
- Use physiological, anatomical and evidence-based knowledge in the clinical settings.
- Behave in a manner consistent with the code of conduct and standards of professional practice set forth by the Athletic Training governing bodies.
- Locate, evaluate and apply evidence-based resources to build knowledge and support athletic training practice.
- Demonstrate administrative duties affiliated with the athletic training profession.
- identify, describe and develop management plans for individuals with psychosocial disorders and/or mental health emergencies.
