## Program Description

The fashion design program at Thomas Jefferson University is globally recognized for its team-oriented designers who understand the interrelationship of design, production and commerce while creatively answering the ever-changing needs of the fashion marketplace. As an integral part of the College of Design, Engineering and Commerce, fashion designers work on industry-related and interdisciplinary projects to develop sophisticated and unique solutions to challenging problems.

## Learning Goals/Outcomes

- Apply conceptual and critical thinking skills to demonstrate the theoretical foundation of the profession
- Perform a broad base of technical skills and technology required of the profession
- Utilize quantitative reasoning and verbal, written and visual skills effectively
- Demonstrate understanding of business practice and ethics
- Possess skills to make contributions to the global fashion industry
- Examine global & cultural issues as they affect the world.
