Program Description

Our online Master of Business Administration (MBA Online) is designed to prepare graduate students for business leadership roles. You'll also learn to effectively analyze venture opportunities, and create viable and practical business plans.

We embrace diversity by welcoming students from all backgrounds and disciplines to collaborate and problem-solve in diverse teams. Our unique curriculum is rooted in design thinking, and emphasizes discovery, empathy, and experimentation. Students are challenged to develop fresh, creative, and viable solutions to complex business problems, leveraging the varied perspectives and experiences of their peers.

Though our MBA Online curriculum mirrors our on-campus MBA program, along with many shared concentration options, applying for our MBA Online as a separate program requires a separate application. You can begin the program in fall, spring, or summer.

Curriculum: 30-46 credits

- Accelerated 8-week courses
- Flexible curriculum plans
