

BEHAVIORAL HEALTH SERVICES (BHSX) (CPS)

BHSX 351: Behavioral Hlth Pol&Services

This course covers the various behavioral health services and programs for adults, children, and youth, and the roles that practitioners perform. Promotion, prevention, treatment and rehabilitation services to the mentally ill, developmentally disabled, learning disabled, and substance abuse populations will be surveyed. The historical context of services and how the mentally ill have been historically stigmatized and conceptualized will be reviewed, so that students will be able to develop critical thinking about mental health services. Contemporary policy issues, legislation, ethical issues, controversies, social movements, and trends affecting services to those with mental illness and mental disorders will be discussed.

Credits: 3

College: Jefferson College of Health Professions

BHSX 498: Behavioral Hlth Svcs Capstone

This course serves as a capstone course in the Behavioral and Health Services program. Students complete the SCPS Portfolio they have been assembling throughout their program. The portfolio provides students with an opportunity to look at the past, present, and future. Students reflect on personal growth and development during their program of study. Students apply the knowledge and skills acquired in their courses to a specific problem or issue. The portfolio concludes with a professional development plan wherein students identify goals for continued professional growth and lifelong learning.
